PROFILE

I have three years of experience as a MEAN Stack Web Engineer with a Bachelor of Commerce degree. My specialties include MongoDB, Express.js, AngularJS, and Node.js. I created and maintained web applications with high-quality code and functionality. In addition, I am fluent in HTML, CSS, JavaScript, and jQuery, and I am now increasing my skills to incorporate the .NET MVC framework.

SKILLS

- Proficient in MongoDB, Express.js, AngularJS, and Node.js
- Strong in HTML, CSS, JavaScript, and jQuery
- Experienced with Git, NPM, and RESTful APIs Familiar with Google Analytics, Advert, WordPress Oxygen builder and Elementor, MS Office & G-Suite, and Ahrefs
- Knowledgeable in .NET, SQL database, Azure, and Google Cloud

EXPERIENCE

ASP.NET MVC DEVELOPER | AZURE CLOUD

- Developed ASP.NET MVC project hosted on Azure with Docker containers. Implemented user authentication and authorization features, including account creation, email verification, password reset, and role-based access control (RBAC).
- Designed and developed an admin dashboard with search functionality for efficient data management.
- Managed employee lists, leave applications, and role assignments within the admin dashboard.
- Utilized Azure SQL database migration for seamless data management, ensuring data integrity and scalability. Enhanced employee profiles with additional details such as cities, countries, and bank account information for comprehensive data tracking and management.
